

## Table of Contents

| Report Sections                        | Page No. |
|--|----------|
| Executive Summary .....                | 1        |
| Introduction .....                     | 3        |
| Existing System .....                  | 4        |
| Study Area .....                       | 8        |
| Planning Criteria .....                | 9        |
| Population Projections .....           | 9        |
| Water Usage .....                      | 10       |
| Water Supply .....                     | 11       |
| Hydraulic Model .....                  | 17       |
| Model Calibration .....                | 17       |
| Distribution of Existing Demands ..... | 18       |
| Distribution of Proposed Demands ..... | 19       |
| Criteria .....                         | 19       |
| Conclusions .....                      | 21       |
| Recommendations .....                  | 24       |

### List of Tables

|  |                 |
|--|-----------------|
| Table 1 – Opinion of Probable Costs Next 10 years .....          | 1               |
| Table 2 – Existing Supply Facilities .....                       | 4               |
| Table 3 – Existing Storage Facilities .....                      | 6               |
| Table 4 – Existing Pumping Facilities .....                      | 7               |
| Table 5 – Population and Water Demands (MGD) .....               | follows page 9  |
| Table 6 – Fire Flow Criteria .....                               | 11              |
| Table 7 – Capacity of the Jackson-Cass Transmission System ..... | 15              |
| Table 8 – Projected Water Supply Capacity .....                  | 16              |
| Table 9 – Proposed Projects .....                                | follows page 24 |
| Table 10 - Recommended Typical Schedule .....                    | 25              |
| for Water System Projects (Months)                               |                 |

## List of Figures

|  |                 |
|--|-----------------|
| Figure 1 – Existing System Schematic.....                | follows page 4  |
| Figure 2 – Study Area.....                               | follows page 8  |
| Figure 3 – Water District 14 Land Use .....              | follows page 9  |
| Figure 4 - Historical and Projected Maximum.....         | follows page 10 |
| Day Demands  |                 |
| Figure 5 – Jackson-Cass Transmission System.....         | follows page 12 |
| Figure 6 - Projected Demand and Supply (MGD).....        | follows page 14 |
| Figure 7 – Proposed Improvements 2016.....               | pocket folder   |
| Figure 8 – Proposed Improvements Ultimate Buildout ..... | pocket folder   |

## Appendices

Appendix A – Abbreviations

Appendix B – Model Calibration

Appendix C – Recommended Improvements Map Ultimate System

Appendix D – Compact Disc
